

nurse alliance is YOU.

what we've accomplished

- Blood Borne Pathogen Standard and safety sharps legislation
- Nurse-to-Patient Ratios with newly won, stronger enforcement mechanisms
- Aerosol Transmissible Disease Standard with respiratory protections
- Safe Patient Handling Standard to prevent musculoskeletal injuries
- Chemotherapy Handling Protections
- Workplace Violence Prevention Standard for healthcare workers
- RN Whistleblower Protections

what we do

- We have a strong **education** program that includes a two-day annual conference in the State Capitol. Our classes are approved by the Board of Registered Nursing for Continuing Education Units.
- We lobby on **legislation** in Sacramento that impacts patient care, our nursing profession, and the communities that we serve.
- We work with Cal/OSHA through the **regulatory** process to ensure that healthcare workers across the state have a safe and healthy workplace.
- We are able to accomplish our goals by partnering with SEIU California, our nursing Locals, and various allies across the state. The power of our voices is strong when we are united. **Together We Rise! Unions for All!**

who we are

Nurse Alliance of SEIU California (NA of CA) is your *professional* organization; consisting of 35,000 Registered Nurses from Locals across the state. Our members work in both public and private healthcare settings, from community-based public health and acute care to corrections, mental health and homeless outreach.

We are *advocates* united to improve healthcare and the profession of nursing through education, empowerment, and action.

Beyond our practice, we believe that union membership is the key to a strong middle class and economy, but there cannot be economic justice until there is racial justice. As leaders, we are addressing the threat of climate change and supporting disaster relief efforts. As union nurses, *we are committed to nurturing and caring for our global community.*

where we're headed

We have a vision where families regardless of race or income, have stable housing, safe neighborhoods, quality educations, affordable childcare, and access to all the support they need. That's why we are proud to support the *Schools and Communities First* campaign that will provide funding for schools, public services, including healthcare, by closing decades old corporate tax loopholes.

By leveraging our statewide political clout, we continue to fight for *safe, accessible, and quality healthcare for all Californians.*

As nurses, we pride ourselves on caring for our patients and the communities we serve with compassion, expertise and professionalism; no matter who they are, where they come from, how they identify or whom they love. We believe in a woman's right to determine her own healthcare needs. This is why *nursing is the most trusted profession.*
